

ここは炉ばた発祥の地「^{くしろ}釧路」。^{くしろ}釧路の浜で揚がった新鮮な魚介類を炭火で焼くと旨みがさらに増す。外は氷点下でも暖簾をくぐると別世界。あつあつの焼きたてをどうぞ召し上がれ、熱燗を片手に。

This is Kushiro, the place of the origin of Robata-yaki (traditional Japanese charcoal grill cooked in front of customers). Fresh seafood caught in Kushiro becomes more tasty if you grill them on charcoal. Once you go through a noren (traditional Japanese fabric divider) to enter the restaurant, the inside is a different universe even when the temperature outside is below the freezing point. Come enjoy hot seafood with hot sake.
